Dear Mr. Osterberg:

On March 28, 2012, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Chevron Products Company's (Chevron) Public Awareness Program procedures in Honolulu, Hawaii. As a result of the inspection, Chevron was issued a Notice of Amendment on April 18, 2012, which proposed amendment of your procedures.

Chevron submitted its amended procedures on August 16, 2012. PHMSA has reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Dennis Hinnah
Deputy Director, Western Region
Pipeline and Hazardous Materials Safety Administration
